

COAST WOOD

Outdoor Type Decorative Lighting Poles

The elegant sobriety of COAST, combined with state-of-the-art lighting technology, ensures its over-average versatility. It can easily be integrated in just about any architectural environment and fulfils every requirement - lighting paths in compliance with safety standards, used in a row, as design-oriented decorative lighting or as a standard guidance system.

Various light distributions, lumen packages, sizes and configurations make these highly adaptable LED outdoor luminaires even more flexible. Depending on personal taste and the area of installation, COAST can be used as pole-top luminaire. When the optional luminaire is added to the latter, it produces a symbolic, almost archetypal effect without loosing its characteristically modern simplicity.
